

Improving Global AML/CFT Compliance: on-going process – 27 February 2015

Paris, 27 February 2015 - As part of its on-going review of compliance with the AML/CFT standards, the FATF has to date identified the following jurisdictions which have strategic AML/CFT deficiencies for which they have developed an action plan with the FATF. While the situations differ among each jurisdiction, each jurisdiction has provided a written high-level political commitment to address the identified deficiencies. The FATF welcomes these commitments. A large number of jurisdictions have not yet been reviewed by the FATF. The FATF continues to identify additional jurisdictions, on an on-going basis, that pose a risk to the international financial system.

The FATF and the FATF-style regional bodies (FSRBs) will continue to work with the jurisdictions noted below and to report on the progress made in addressing the identified deficiencies. The FATF calls on these jurisdictions to complete the implementation of action plans expeditiously and within the proposed timeframes. The FATF will closely monitor the implementation of these action plans and encourages its members to consider the information presented below.

Guyana

In October 2014, Guyana made a high-level political commitment to work with the FATF and CFATF to address its strategic AML/CFT deficiencies. However, the FATF has determined that certain strategic deficiencies remain. Guyana should continue to work on implementing its action plan to address these deficiencies, including by: (1) adequately criminalising money laundering and terrorist financing; (2) establishing and implementing adequate procedures for the confiscation of assets related to money laundering; (3) establishing and implementing an adequate legal framework for identifying, tracing and freezing terrorist assets; (4) establishing a fully operational and effectively functioning financial intelligence unit; (5) establishing effective measures for customer due diligence and enhancing financial transparency; (6) strengthening suspicious transaction reporting requirements; and (7) implementing an adequate supervisory framework. Indonesia

Since February 2010, when Indonesia made a high-level political commitment to work with the FATF and APG to address its strategic AML/CFT deficiencies, Indonesia has made significant progress to improve its AML/CFT regime. Indonesia has substantially addressed its action plan at a technical level, including by: (1) adequately criminalising money laundering and terrorist financing; (2) establishing adequate procedures to identify and freeze terrorist assets; and (3) enacting laws or other instruments to fully implement the 1999 International Convention for the Suppression of Financing of Terrorism. The FATF encourages Iraq to address its remaining deficiencies and continue the process of implementing its action plan.

Lao PDR

In June 2013, the Lao PDR made a high-level political commitment to work with the FATF and APG to address its strategic AML/CFT deficiencies. Since October 2014, the Lao PDR has taken steps towards improving its AML/CFT regime, including by enacting AML/CFT legislation. However, the FATF has determined that certain strategic AML/CFT deficiencies remain. The Lao PDR should continue to work on implementing its action plan to address these deficiencies,

including by: (1) adequately criminalising money laundering and terrorist financing; (2) establishing and implementing adequate procedures for the confiscation of assets related to money laundering; (3) establishing and implementing an adequate legal framework for identifying, tracing and freezing terrorist assets; (4) establishing a fully operational and effectively functioning financial intelligence unit; (5) establishing suspicious transaction reporting requirements; (6) implementing an adequate AML/CFT supervisory and oversight programme for all financial sectors; and (7) establishing and implementing effective controls for cross-border currency transactions. However, the FATF has determined that strategic AML/CFT deficiencies remain. Panama should continue to work on implementing its action plan to address these deficiencies, including by: (1) adequately criminalising money laundering and terrorist financing; (2) establishing and implementing an adequate legal framework for freezing terrorist assets; (3) establishing effective measures for customer due diligence in order to enhance transparency; (4) establishing a fully operational and effectively functioning financial intelligence unit; (5) establishing suspicious transaction reporting requirements for all financial institutions and DNFBPs; and (6) ensuring effective legal mechanisms for international co-operation. The FATF encourages Panama to address its remaining deficiencies and continue the process of implementing its action plan.

The FATF encourages Papua New Guinea to address its remaining deficiencies and continue the process of implementing its action plan.

Sudan

In February 2010 and again in June 2013 in view of its revised action plan, Sudan made a high-level political commitment to work with the FATF and MENAFATF to address its strategic AML/CFT deficiencies. Since October 2014, Sudan has taken steps towards improving its AML/CFT regime, including by issuing customer due diligence circulars and guidelines for mutual legal assistance. However, the FATF has determined that strategic AML/CFT deficiencies remain. Sudan should continue to work on implementing its action plan to address these deficiencies, including by: (1) ensuring implementation of recent procedures established to freeze terrorist assets and (2) ensuring a fully operational and effectively functioning financial intelligence unit. The FATF encourages Sudan to address its remaining deficiencies and continue the process of implementing its action plan.

In June 2014, the FATF determined that Syria had substantially addressed its action plan at a technical level, including by criminalising terrorist financing and establishing procedures for freezing terrorist assets. While the FATF determined that Syria has completed its action plan agreed upon with the FATF, due to the security situation, the FATF has been unable to conduct an on-site visit to assess whether the process of implementing the required reforms and actions is underway. The FATF will continue to monitor the situation.

The FATF will continue to monitor the situation.

Jurisdictions not making sufficient progress

The FATF is not yet satisfied that the following jurisdiction has made sufficient progress on its action plan agreed upon with the FATF. The most significant action plan items and/or the majority of the action plan items have not been addressed. If this jurisdiction does not take sufficient action to implement significant components of its action plan by June 2015, then the FATF will identify this jurisdiction as being out of compliance with its agreed action plan and will take the additional step of calling upon its members to consider the risks arising from the deficiencies associated with the jurisdiction.

Uganda

Despite Uganda's high-level political commitment to work with the FATF and ESAAMLG to address its strategic AML/CFT deficiencies, the FATF is not yet satisfied that Uganda has made sufficient progress in improving its AML/CFT regime, and certain strategic AML/CFT deficiencies remain.
